CAREER OBJECTIVE

Creative and growth-driven Full Stack Developer with a passion for building modern, scalable, and user-centric web applications. Driven by a deep interest in web technologies, clean architecture, and developer tooling. Committed to solving real-world problems through innovative code, continuous self-improvement, and collaborative teamwork. Currently pursuing BCA while actively building projects that bridge design and functionality.

EDUCATION

Bachelor of Computer Applications (BCA)

2025 – 2028

Institute of Advanced Computer & Research, Ahmedabad

- Specialization: Computer Applications & Software Development
- Relevant coursework: Data Structures, Web Technologies, Database Management, Cloud Computing

Senior Secondary (XII) — CBSE, Commerce

2025

Airport School, Ahmedabad

- Percentage: 87.00%
- Strong foundation in logical reasoning, mathematics, and communication

PROJECTS

MedBuddy — AI Healthcare Web Platform

Apr 2026

Personal Project · HTML · CSS · JavaScript · React · Python

- Built a full-stack healthcare web platform to simplify medical assistance for end users.
- Features include smart medicine reminders, symptom tracking, appointment scheduling, and real-time healthcare support.
- Designed an intuitive, responsive UI focusing on accessibility and ease of use for non-technical users.
- Integrated a symptom checker to suggest relevant health resources and alert thresholds.
- Sole developer — handled frontend, backend logic, and product design end-to-end.

3d Portfolio Website

May 2026

Personal Project · HTML · CSS · JavaScript

- Designed and developed a personal portfolio to showcase projects, skills, and achievements.
- Implemented smooth animations, responsive layout, and modern UI patterns.
- Deployed via GitHub Pages with version-controlled workflow.

TECHNICAL SKILLS

Frontend

HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Design, UI/UX Principles

Backend	Python, REST APIs, Basic Node.js
Tools & DevOps	Git, GitHub, GitHub Pages, VS Code, Figma (basic)
Concepts	OOP, MVC Architecture, Version Control, Agile Basics, Debugging

SOFT SKILLS & WORK STYLE

- ▶ Vibe Coding — building with flow and aesthetic sense
- ▶ Rapid Prototyping & Iterative Thinking
- ▶ Problem-solving & Analytical Mindset
- ▶ Self-Directed Learning & Curiosity
- ▶ Attention to Detail & Clean Code Ethos
- ▶ Effective Communicator & Team Player
- ▶ Adaptability & Growth Mindset
- ▶ Time Management & Deadline-Oriented

CERTIFICATIONS & LEARNING

- ▶ Actively pursuing web development certifications through various online learning platforms
- ▶ Continuously building side projects to apply new frameworks and development techniques
- ▶ Engaged with open-source communities and developer forums

Open to internships, collaborations, and entry-level full stack / frontend roles.
